Wheat Declined Another Fraction on Reports of Heavy Yield.

CORN WAS WEAK AND CLOSED LOWER

Oats Were Fairly Active in the Early Part of the Session, but Slackened Up Later and Closed Rather Quiet.

CHICAGO, July 26 .- Because of the evidence of a heavy spring crop wheat got another section of Wednesday's heavy rise taken off today. The decline at one time amounted to Pac per bu., and at the close the price was still the lower than at the corresponding time of the day before. Corn was weak and closed 1/2c lower for September, and September oats lost 1/2c. Provisions declined also, although hog receipts were very small.

Owing to an unexplained firmness in Liverpool the wheat market here started at an advance of from %c to %c over the closing price of the day before. The first trades were at from 71c to 71½c for Sep-tember, and in the time referred to the price had tumbled to 69½c. The principal ise of the early break was the circulation of an article in the Cincinnati Price Current. The particulars of the day's re-celpts of wheat at primary markets were The export clearances from the scaports were small. The inspecm the scaports were small. The inspecn in the storehouse was 55 cars, of which
is cars were No. 2 red. On the corrending day a year ago 93 cars were rered, of which four were of the contract
ade. Primary market receipts were 490bu, against 1,654,000 bu, a year ago. Of,
000 bu, received at Toledo today 144,000
were from Chicago. The export clearce of wheat and flour amounted to 199,000.
Spot wheat in Liverpool was id higher

It recovered again to c, but closed at 69%c, after a decline to

orn was weak, and although September corn was weak, and although september declined about ic per bu, the trade was not very active. The cash purchases for shipment today amounted to 200,000 bu. The break in wheat had influence in the dump, which occurred in corn. September opened at from 44%c to 43%c, against 43%c at the close of yesterday. It worked gradually down to 43c, but recovered the early loss to 44%c. were fairly active in the early part

of the session, but slackened up later and closed rather quiet. The feeling was easier during the greater part of the session, almost entirely through sympathy with wheat and corn. September opened at 22%c, sold down to 22%c to 23%c, and closed at 22%c.

provision market was lifeless and The provision market was lifeless and heavy. Receipts of hogs were quite light, but the market appears to be suffering from the liberal receipts earli in the season and the consequent accumulation of manufactured goods. Pork, compared with its closing prices yesterday, is 7½c lower, lard and ribs each 2½c lower.

VEGETABLES.

The present outlook is very favorable for a large crop of potatoes in this section of the country. Of recent years cereals have ruled low in price, and the potato crop has proved more profitable than many other products, and the acreage has steadly increased in consequence, though the actual production has been fight some seasons owing to unfavorable weather and damage by insects, and it has been necessary to draw large quantities from foreign countries. As an example, the area planted in the United States last year was 2.73. Did acres, which was \$3.00 acres more than planted in 180; but not with the product was 2.25,000 bushels less than in 183, the yield per acre being \$2.3 bushels, against 70.3 lushels the previous year. The value of the crop last year is given by the government as \$91,526,737, against \$108,661,801 in 1893. Quotations:

CALIFORNIA FRUIT IN LONDON. Disposed of at Prices Far Below Those of a Former Shipment.

Disposed of at Prices Far Below Those of a Former Shipment.

LONDON, July 26.—Sixteen hundred cases of California fruit which arrived at Southampton from New York by the steamship St. Louis at \$115 yesterday morning were sold at auction at Covent Garden, fetching prices which were one-half below those of last week. The plums averaged 7s 16d per case, the peaches 8s and the pears 11s 7d.

There was a large crowd of buyers present in the market. The auctioneer first sold 31 cases of plums packed by the Joe Anderson Fruit company of San Jose, and he was obliged to use a great deal of labor to sell them at 7s 6d a case. He explained to the crowd that the last lot of fruit came over the sea in the refrigerator compartments of the steamship, and as a consequence they turned dark when exposed to the air. The present goods, he assured the prospective buyers, were in better shape. The second lot of plums, shipped by Stroper of San Jose, sold at 8s 3d per case. The Crawford peaches, packed by the National Fruit company of Riverside, sold readily as \$9 3d. Here the sale languished, but the auctioneer urged the crowd to buy, saying that the last lot of fruit was pleked too soon, and that the present lot was of a better size. Under this stimulus Mr. White sold 160 cases of pears, packed by Sol Runyan of Courtland, which brought 9s per case. Then he auctioned off an extra live of pears, packed by H. Mayers of Riverside. They brought 13s per case.

The buyers informed a representative of the Associated press that the fruit was a better quality than the last consignment. Still they do not think that more money can be inade with the American fruit than French fruit. The best lot was 50 cases of pears packed by the National Fruit company, which brought 14s 6d.

Mr. White insists that the first lot of fruit was sent over in the refrigerator compartments of the Paris.

BUSINESS IS ENCOURAGING

Dullness of Midsummer Not as Perceptible as Usual.

Light western receipts for the week, not a third of last year's, and for four weeks only 5,395,993 bushels, against 11,882,619 bushels last year strengthen adverse reports, because the price a year ago was about 29 cents lower than it is now. The western movement largely depends on the expert demand, which is phenomenally light. Atlantic shipments for the week having been flour included, only 1,255,618 bushels, against 3,596 bushels lost year, and for four weeks only 3,590,589 bushels against 9,882,722 bushels last year. Corn advanced about 1 cent with wheat, but has since lost all the gain. Cotton has remained unchanged at 7 cents, although the latest reports favor larger estimates of the yield, a circular by Neill going much beyond other figures.

Prices of iron and steel products still rise, the features this week being the startling advance of 50 cents per keg in cut and wire radis, with new cards for various sizes, which it is stated makes the advance unequally greater than it appeared. Angles are also a slade higher, and other prices strongly maintained, Bessemer plg does not advance, although the Carnegie and one other company have been buying about 14,000 tens, which is supposed to foreshadow have contracts for ralls. In the first half of 195 orders for ralls, in the first half of 195 orders in the first half of last year, and a good many small orders appear at Chicago. Otherwise there with orders for some time to come. Privage's that other furnaces with a capacity of 8,000 tons weekly in the east, and as much in the south, will go into blast within the remaining months of 1895 hinders further rise in pig.

Copper has again advanced to 11½ cen s fo. lake, contracts having been made this month for 29,000,060 pounds, and lead is also strong.

Textiles have a better outlook, with a larger demand both for cotton and woolen goods, a shade advance in print cloths and in most bleached goods, and a more hopefol market for light weight woolens, which if scarcely advanced beyond last year's prices are, on the who

ecable portion of the week the speculative it did show any signs of life its tendencies were bullish and Wall street would seem to be thor-oughly imbued with the idea that the crop situaoughly imbued with the idea that the crop situation, particularly as regards corn, promises an era of prospecity for the railroads. The strong feature has been the corn roads, the presence of a large and anxious short interest making it comparatively easy to advance them upon modest transactions. While Wall street showed builtish tendencles, the foreigners were light scilers of those specialties, directing, however, their principal pressure on St. Paul and the wheat carriers. The market has made but little account of London's begrishness, nor did the shipment of 11,00,000 of gold tast Saturday by a coffee impering firm and threats that other mercantile houses would take the same line of action shake confidence in the ability of the Belmont-Morgan syndleate to protect the treasury. The fact that exchange holds firm at top rates, that gold shipments are only averted by the Influence of the syndicate, and that commercial bills against grain exports are in good supply, notwithstanding the high price at which grain is held, all tend to maintain a waiting attitude on the part of the public.

BRADSTREET'S REVIEW OF TRADE. Feature of the Week Has Been the Large Demand for Iron and Steel. NEW YORK, July 26.—Bradstreet's tomorrow NEW YORK, July 26.—Bradstreet's tomorrow will say: The most striking features of the business week are the influences of continued improved crop prospects and the large demand for iron and steel, with one of the largest makers in the market as a buyer of Bessemer pig. Most of the commercial and industrial teatures of the previous week are retained. Commercial travelers are being sent out in all lines, and reports from those now on the road appear to meet expectations. The strength of the wheat market, based on reports of damage to the spring wheat, together with the falling

off of receipts at princes markets, is followed by a drop in the quartity of wheat exported this week, which total thorr included as wheaty amounts to 1,250-09 but from both consts of the United States and from Montreal, compared with 1,62,000 bu. In at seek, 3,385,000 bu. In the four weeks of July, 484, 1,23,000 bu. In the corresponding week of 1851, 2,534,000 bu. In 1892, and 3,164,000 bu. In 4851, The present week's slipments, therefore, are the smallest sent out since the first week of 3me, 1891.

Slight Gain in Cattle Receipts for the Day Noted.

VERY FEW CORNFED STEERS OFFERED

Packers All After the Stock and Prices Strong-Handy Feeders Sell Well-Light Receipts of Hogs Raise Prices.

FRIDAY, July 26. The receipts today were 1,723 cattle, 1,180 hogs and 143 sheep, against 1,556 cattle, 1,666 hogs and 1,467 sheep yesterday, and 1,594 cattle, 2,121 hogs and 311 sheep on Friday of last week.

CATTLE-The receipts of cattle today consisted of sixty-four loads, as against fifty-seven yesterday. The receipts were a little larger than yesterday, and larger than on Friday of last week. Of the cattle here, however, twelve loads were consigned direct to the packers, making the total on sale only 1,296 head.

As has been the rule of late, the supply

of fat steers suitable for killers was very light. There were a few cornfed steers which belonged to a packer, but aside from these there were no native beaf steers in the yards. There were a few loads of grass westerns, but none of them very good. There were a couple of loads that brought There were a couple of loads that brought \$3.65, and a third load soid at \$3.50. The killers wanted cattle, and it was a good, strong and active market.

Cows and heifers constituted about half of the cattle on sale. The demand was good and the market active at prices that were for to 10c better than yesterday. The offerings were all taken early and the pensicleared. A large proportion of the cows on sale brought \$2.0072.75.

Good feeders were in active demand again today. There were, in addition to the speculators, quite a number of country buyers in the yards, and the offerings chained hands rapidity. The prices paid were a little stronger than yesterday, and the market may be said to be at the highest point touched so far this week. Light and commonish stockers continue slow, with the de-

CHICAGO LIVE STOCK.

There Were Sufficient Cattle to Go Around but Receipts Were Small. CHICAGO, July 25.—Only about 2,580 cattle arrived, but there were enough to go around and prices were no more than steady. Cattle weighing between 1,200 and 1,400 lbs. sold to much better advantage than heavier weights and very choice beeves were salable around 45.50. Choice feeders were searce and firm at from 44 to 44.10, few lots being good enough to seil above 33.75. Among the sales of western rangers were 231 Nebraska-Texana averaging 250 lbs. at 33.45 and 119 cows and heifers averaging 1,033 lbs. at 33.65.

There were 25,000 hogs on sale. The demand from Chicago packers and eastern shippers could hardly be called active, but it showed some improvement and prices were stronger, with an average advance of 5c in heavy and mixed droves. Light weights sold at from 44.30 to 45.20. The bulk of the hogs sold at from 44.70 to 45.20. The bulk of the hogs sold at from 44.70 to 45.20. The bulk of the hogs sold at from 44.70 to 45.20. The bulk of the hogs sold at from 44.70 to 45.10. A great many could not be sold and a large number were again carried over.

The recent big advances in prices for sheep had the expected result this week of greatly increasing the receipts and prices bulke from 5c to 75c per 100 lbs. for all except the best, putting quotations about where they were three weeks ago. Natives sold at from 15.30 to 44.55 as an extreme range, the top price being paid for some fancy 115-ib. Jaropshires. Sales were largely at from 22.25 to 33.50. Texas sheep sold at from 24.90 to 33.10. Westerns sold off to from 52.50 to 35.75. Spring lambs joined in the decline, the break amounting to fully from 50c to 75c Wednesday, on which day they seed at from 15.10 to 14.80, Since then both sheep and lambs have sold more actively at better prices, the rally including a small advance today, being about from 15c to 20c. The best lambs are now fetching 55.

Receipts: Cattle, 5,000 head; calves, 300 head; hogs, 9,000 head; sheep, 5,000 head.

Wool Market.

Wool Market.

BOSTON. July 26.—The Commercial Bulletin will say tomorrow: Demand for work has been less in comparison with past phenomenal activity, but the sales are more nearly confined to consumers, speculation being less of a feature. Prices are firm, but the opinion is that the advances have terminated, for a time at least. The feature of the week was the big sales of territory wool and the sharp call for Australian, which has swept the market aimost clean. Domestic fleece wools are very strong and not in large offering, and with pulled wools show the greatest firmness, better prices being obtained for both in some instances. The sales of the week are 3.725,500 lbs. domestic and 1.785,000 lbs. foreign gainst 4.650,000 lbs. domestic and 2.091-000 lbs. foreign last year and 10.511,000 lbs. domestic and 2.991-000 lbs. foreign last year and 10.511,000 lbs. domestic and 135.000 lbs. domestic and 145.00 lbs. foreign from the sales to the same date in 1894. The receipts to date shows an increase of 12.442.25 lbs. domestic and 6.555 fb0 lbs. foreign from the sales to the same date in 1894. HORSE MEAT SHOULD BE CHEAP.

Two in Its Favor. PORTLAND, Ore., July 26.-A special rate on canned and pickled meat as a result of the horse meat industry established in this city has been made to eastern points by the railroads. The Oregon Railway & Navigation company, in connection with the Union Pacific system, Great Northern railroad and the Northern Pacific, has issued an amend-ment to eastbound north Pacific coast tariff ment to eastbound north Pacific coast tariff for this purpose. The new tariff applies equally to all eastern points.

The rate established is \$1 per 100 pounds in carloads, 24,000 pounds minimum weight.

A radical reduction of nearly 100 per cent is made. The present rate on canned meats is \$1.85 to Chicago and \$2.10 to New York. The new rate is effective August 2.

Rubenstein Won Handily from Hal Pointer and Mascot.

WAS NEGLECTED BY THE KNOWING ONES

Hal Pointer Won the First Heat, but After That Had No Show in the Race-Mascot Gave the Winner a Brush in the Finish.

DETROIT, July 26 .- Another large crowd saw the races at the Grosse Point track this afternoon. The track was in good condition, but a stiff breeze blew down the back stretch, and the time made was not remarkable. The feature of the day was the 2:04 pace, in which Hal Pointer, Mascot and Rubenstein started. In the morning augtions Pointer and Mascot sold at \$50 each and the field, Rubenstein and Directly, at \$7. In the books Mascot opened a strong favorite. After the first heat Pointer sold favorite against the field at 25 to 10. Rubenstein was almost neglected in the books. When he took the second heat, however, he became an even money favorite, and in the fourth heat was at prohibitive odds. Pointer took the first heat in hollow style. After that it was all Rubenstein, although Mascot gave him a brush in the fourth heat. The brown horse, however, was never in danger. Onoqua was a strong favorite in the 4-year-old race, but the best she did was to win the first heat by a nose. Beusetta was an easy winner of the next three. Flakland sold favorite in the Merchants' and Manufacturers' Consolation stake, and succeeded in landing the money only after a hard fight, the finishes being the best of the day.
